As a technology and people oriented Crane Company, WEIHUA is determined to provide global customers the optimal material handling equipment to their applications and we provide overall crane services including crane consultation, crane design, production, installation, crane maintenance and modernization, etc.

“Score Group plc operates worldwide providing engineering services across five continents within a range of sectors which include oil & gas, nuclear and marine. The Score Group of companies primarily provide services related to valves and industrial gas turbines in addition to training, specialist coatings and cell disruptors.

Score was founded in 1982 by Charles Ritchie in Peterhead in the North-East of Scotland providing valve repair and supplying services for the UK oil & gas industry. Since the 1980's Score has been expanding internationally and now the group of companies have facilities in over thirty countries worldwide and operate in even more. Score Group plc continues to be guided by its founder Charles Ritchie from the group's headquarters in Scotland. In 2014 the Group employs over 1700 people and is deeply committed to the training of its personnel with over 300 apprentices employed within the Group worldwide."

Score needs Crane Manufacturers WEIHUA provide a material handling solution to its warehouse and the detail dimensions of the warehouse are provided to WEIHUA. After the study on the warehouse, our

crane engineer recommend European style single girder gantry crane which will satisfy all the lifting requirements of Score Group and the specifications are as follow:

Lifting capacity: 5tons

Lifting height: 3.8m

Span: 15.5m

Advantages of 5 Ton Rail Mounted Gantry Crane:
Low clearance, small dimension. Light dead weight. Provide more effective working space. Importing configuration, Siemens motor, Schneider electrics and France wire rope etc. Double lifting speed and inverter traveling speed

As the customer require the crane urgently, so we arranged the production right after the acceptance of the bank slip. With the cooperation of Sales Department, Technical Department, Production Department and Quality Testing Department, we finished the production of the single girder gantry crane in 20 days, which makes the customer very satisfied.

According to the stipulation from Australia customs, we packaged the crane with plywood, SAY NO to the solid wood.

 **CRANE MANUFACTURERS**

As the gantry crane will be delivered by 40ft open top container with the total length around 11.8m whereas the crane span is 15.5m, we designed to manufacture the single girder gantry crane span into two separate parts with the length of 11.5m and 4m directly, which will be assembled into one whole and the reliability and safety is guaranteed.

installations specifications and electrics drawings.

During the installations, they have little difficulty in connecting the hoist electrics, so we offered our electrics engineer's mobile soon, and let them talked directly.

Finally, they finished the installations successfully, and happily sent the installation pictures to us.

After the successful installation and commissioning, the customer hold much more

Once everything finished, we booked the vessel and arranged the container to our factory to load the gantry crane. During the loading, our logistic department workers fixed the crane well once it is loaded.

confidence on us, Crane Manufacturers WEIHUA, and they promised they will offer us more cooperation's chance and introduce us to their friends.

Self-comment: Over 10 years crane working and exporting experiences, easily help the customer find the suitable product.

Customer installed the crane by themselves according to our
